The Symposium's Material Focus

Information on the venue

Conference dates: 12th - 14th November 2009. Conference location: Hotel "Kolovare" in Zadar - Croatia (Hrvatska) (http://www.hotel-kolovare-zadar.htnet.hr/kolovare_eng.htm). The weather in Zadar at this time is usually "very good". Social program will offer on the 13th November 2009 (at 20:00) one dinner, and on the 14th November 2009 (at 10:00) one day trip by bus to beautiful Croatian City on Adriatic sea called "Biograd na moru" with "domestic lunch" in Restaurant on the beautiful coast so called "riva" (with original Dalmatian national foods, fish and drinks).

Symposium's purpose

The aim of the Symposium is to bring together experts in Kinesiological education with a different background to discuss the current developments in the Knowledge Kinesiology. The changing landscape involves quite complex issues not so easy to grasp by an individual expert. The aim is further not to go into detailed technicalities, but to discuss the complexity at level that is understandable by non-experts and enables the discussion of the Kinesiological education in Pre School and primary education complexities to the mutual benefit of all participants. Papers accepted by two independent reviewers will be published in the Conference Proceedings. The conference intends to attract professionals, students and academics alike.

The Situation

Physical education, due to its significance for coherent development of anthropological characteristics of children, is unique in its possibilities and characteristics. Physical education, due to its significant for coherent development of anthropological characteristic of children is unique in its possibilities and characteristic. There are few activities for children who have such a significant influence on quality of there life as physical education, which can be achieved with strictly planned process of transformation of anthropology status, motor knowledge and achievements in field of kinesiology education. School and preschool institutions are invited to give the answers to way of modern life that has, in one extend, negative influence on children from the early age. This situation is increasing responsibility of school and preschool institutions in seeking adequate answers. Assumption of optimal answer is professional, scientific based work, adequate to goal orientate development of children characteristic which are aimed towards development and improvement of knowledge, skills and characteristic who are in specific age group progress primary for preschool children and children in primary education. The aim is to establish a system of monitoring anthropological characteristics, motor knowledge and achievement and educational variables essential for planning the work in the field of kinesiological education of preschool children and children in lower grades of elementary education. Respected this assumptions it is possible to optimize kinesiological education with preschool children in lower grades and primary education. Subject of Symposium is particularly topical with curriculum changes abroad in Europe and at home, where the scientific conference conclusions including this symposium could have and should have influence to the changes of kinesiological knowledge. The Symposium is part of scientific project (Kinesiological education in pre school and primary education), executed with support of Ministry of Science, Education and Sport of Republic of Croatia.

Review Process and Conference - Symposia Proceedings

All abstracts submitted on time will be peer-reviewed. Final (full) papers (a camera-ready electronic version, including appendices and literature) should not exceed 15 single-spaced typed pages (or approximately 30000 characters) and have to be prepared according to the Instruction to Authors:

The authors are solely responsible for the full and proper preparation of the manuscript.

The authors are also exclusively responsible for the appropriateness, quality and style of the English language used (either British or American).

Size: contributors are stipulated to keep themselves within the framework of up to the maximum of 6 pages (including title, authorship, affiliations, abstract, key words, body of the text, tables, figures or any other graphical illustrations, and references).

The "page" here means: A4 size (21 x 29.7 cm; portrait orientation) white bond paper; all four external margins set at 3 cm. Acknowledgments (preferably not) should be positioned at the very end of the manuscript.

Typefaces: times New Roman (TNR), character size 11 in the body of the text, spaced 1.5; Arial Narrow (AN) in tables, character size 10, single-spaced. Justified on both sides of the text.

Headings: print the TITLE of the paper in capital letters (TNR, 14 pts, bold, spaced 1.5), centred; a single blank line follows, then come the full names of the author(s) (TNR, 11pts, bold, current; full first and family names, middle name abbreviated to an initial), separated by commas.

Underline the presenter. One blank-line-separation between author(s) and affiliation(s). Relate each author to the respective institution(s) by an identification number in the superscript. Institutions should be introduced by their identification number, the name of the institution, City, Country. Institutions should be separated by semicolons. Two blank lines should separate the affiliation(s) from the Abstract.

Organisation of the paper: each paper should consist of a heading, abstract, key words (up to six which have not already been mentioned in the title of the contribution) and the body of the text. Use

italics to highlight any key words within the text, if necessary.

Abstract, the body of Abstract (TNR, 11 pts, current) should be justified on both sides of the text, consisting of a single paragraph only. Together with the title and all key words.

The body of the text should be divided into sections with Subtitles (TNR, 11pts, bold, current, justified on both sides of the text, preceded by one blank line), for the experimental studies:

Introduction, Methods, Results, Discussion and conclusions, References (in the text, the references should include the family names of the authors and the year of publication; when three and more authors are referred to, introduce the first author and use the abbreviation "et al."; at the end the contribution, the references should be listed alphabetically; up to five).

It is recommended for all contributions, the Harvard reference system.

The pages must be numbered. No foot-notes are allowed.

Please, do not number the sections or subsections.

The proceeding is printed in black and white! No coloured illustrations are allowed.

Tables, graphs and figures, black and White illustrations should be incorporated in the body of the text. Tables (Arial Narrow, 10 pts; referred in the text as Table and numbered consecutively with Arabic numerals in a single series). Please, be sure not to send the tables in the format of a picture. Keep each illustration "unlocked". Each illustration must have its title, or caption and a description (placed above the tables and beneath the figures).

Graphs, pictures and photographs (referred to in the text as Figures and numbered consecutively with Arabic numerals in a single series), all black and white (do not use heavy black, please), should be of good quality (digital photographs of at least 300 dpi; .jpeg or .tiff format) so be sure that your block diagram or curves are legible.

All submitted on time, selected (positively reviewed papers - by two independent referees) and presented papers for which the registration fee was paid, will be published in Preconference-Symposia Proceedings and distributed at the Symposium.
